FINANCE AND STRATEGY ASSOCIATE

Description

Join our Team

Join Cloverleaf in developing innovative solutions for the largest electric loads. We develop power-ready and construction-ready sites to enable the growth of cloud computing and artificial intelligence, the renaissance of domestic manufacturing, and new forms of energy production.

We are a fast-paced company with experienced founders, strong investors, and a collaborative work environment. Take your career to the next level, make a difference, and work on some of the most important issues of our time!

Position Description

We are seeking an early-career professional to join our dynamic team as the Finance and Strategy Associate. The position will play a critical role in project investments, company strategy, and capital allocation. The ideal candidate will have experience in finance; a working knowledge of energy, digital infrastructure and/or real assets; and a proven track record of thoughtful, detailed, and actionable analysis. The role offers the ability to work directly with company management and investors in a fast-paced environment and a fascinating industry.

Responsibilities

1. Project Investment Analysis

- Conduct comprehensive financial analysis of company development projects, including cash flow projections, scenario analysis and risk assessment
- Collaborate with cross-functional teams to assess project inputs, risks and opportunities
- Verify and quality control inputs and outputs
- Support capital allocation decisions by presenting high-quality, strategic and thoughtful analysis

2. Market and Site Selection

- Develop and implement quantitative methods to guide the company's selection of markets and sites
- Perform total cost of ownership calculations including development and construction costs, costs of power supply, grid upgrades, state and local taxes and other factors

3. Company Financial Projections

- Develop and update a company financial model
- Present results to company management and investors to guide capital formation, investment decisions, and annual budgeting

4. Commercial Support

- Support the company as it works with customers on joint ventures, project sales and other similar arrangements
- Prepare high quality materials to support customer and investor discussions

5. Other Finance Functions
